

## **Discounted Cash Flow Valuation**

- ❖ As part of your FMEP Gold Program, you will also get access to an additional module on Discounted Cash Flow Valuation.
- ❖ After learning this module, you would be able to do a DCF Valuation Analysis on any company of your choice, using Microsoft Excel. The method, rationale and logic to perform this analysis on Excel will all be taught through the module.
- ❖ On your start date – which is tomorrow onwards, you would be able to see this module as part of the resource section. The module will be followed by a task that will give you much needed clarity and confidence on how you can do a DCF Valuation on MS Excel.
- ❖ Before attempting this module; we would recommend that you first go over the Financial Markets Training Resource and complete the research project till Research Insight 1.
