This shows the average cost of all your purchased shares in that company. For example, if you purchased 10 shares of Tata Consultancy Services (TCS) at Rs. 1000, then 10 again at Rs. 998 and 10 again at Rs. 996, then your average cost of the 30 shares will be Rs. 998. It follows first in first out (FIFO) method; therefore, if you sell 10 shares out of the 30, then average cost will drop to Rs. 997.
