

## **FMEP Gold – Technical Analysis**

- ❖ The FMEP Gold Program also has an in-depth module on Technical Analysis that is integrated in it.
- ❖ You can find this as part of the resource section.
- ❖ You can go over this whenever you want, but we would suggest that you first finish the Financial Market aspect of the resource section and then go over this.
- ❖ This module is divided into 4 parts, Candlestick Patterns I, Candlestick Patterns II, Chart Patterns I and Chart Patterns II.
- ❖ After completing each of the parts, you can go over the Task that is pinned at the end of the module and attempt that.

**Good luck!**
